EMIS Optimization Workflow & Accountability Proposal

Wadsworth City Schools

August 2017

Overview

The Vinson Consulting, LLC (“Vinson Consulting” or “VINSON”) Services team has experience in providing solutions in the K-12 Education Sector, as well as knowledge of Education Management Information System (EMIS) related data systems. Vinson Consulting will bring knowledge of consulting services, project management and software systems to Wadsworth City Schools (the “District” or “Client”). Vinson Consulting is proposing an EMIS Optimization Workflow and Accountability review. The goal of the EMIS Optimization Workflow and Accountability review is to give school districts, specifically Superintendents and Treasurers, confidence in the accuracy of the data being submitted to the State.

Many school districts today lack systems of accountability and processes to verify the accuracy of data they are reporting to the State. This has been an area of inevitable frustration and continual stress for school administrators and staff. In an effort to improve these systems and processes, and hopefully diminish potential liabilities, Vinson Consulting has created an EMIS Optimization Workflow and Accountability review. This includes reviewing current systems, workflows, and documentation associated with EMIS, clearly mapping which entities are responsible for which record sets, and ensuring stakeholders are identifiable and accountable. Vinson Consulting’s approach to tackling the complexities of EMIS is straightforward and ultimately gives you the ability to verify the accuracy of data before submission to the State.

Your Vinson Consulting team of professionals is committed to the success of the Wadsworth City Schools’ EMIS Optimization Workflow and Accountability review.

CONTRACT TO MAINTAIN THE RUNNING TRACK SURFACE AT WADSWORTH HIGH SCHOOL 2018 – Year 1 of 5

All American Tracks Corporation proposes to maintain the rubberized track surface at Wadsworth High School (owner) for a period of one (1) year for the sum of \$13,000.00. Contract effective dates: 2018 (year 1 of 5).

We will inspect the track and submit a brief report on the condition of the track and what needs to be done to it at that time. This maintenance program is not a warranty. It is intended to provide a safe track surface by making minor repairs, such as;

1. Repairing hunks of rubber that have been torn by a lawn mower, especially around the edges. We refer to these as gouges. These areas need to be repaired so the areas around the gouges do not continue to delaminate further.
2. We will repair any seams or cracks opening on the synthetic surface with elastic filler.
3. In the 5th year, after, repairs, we will apply two coats of red polyurethane binder and EPDM rubber mixture. This is a wearing course to protect the base mat from wear. We will then restripe all lane lines and event markings. This process will keep your track resilient and looking new.

Things that are not covered are vandalism, intentional or willful damage, natural catastrophes, asphalt deterioration and striping. Abuse of the installation specifically includes:

1. Use of the track by motor vehicles or equipment.
2. Use of the track for other than track and field activities such as parades, assembly, bleachers, band and cheerleaders.
3. Damage to the surface caused by football, baseball or soccer.

The owner acknowledges that the sub-base and the base asphalt are separate installations and are not covered by this contract. This contract does not cover the base asphalt or problems in the rubber track surface that are a result of defects, cracking, shifting or deterioration of the base asphalt, loose areas holding water due to the base asphalt not properly leveled, sink holes, vegetation growth through the base asphalt, grass left on the track which may germinate causing grass/ weed growth or water accumulation beneath the track base causing bubbling or water not being able to escape due to the asphalt slope or defects in the asphalt, the water table high or poor and inadequate drainage system.

If the owner enters into five consecutive contracts at the same price per year of \$13,000.00, All American Tracks Corporation will, at the completion of the fifth year, apply the red structural spray and re-stripe all lane lines and event markings.

Summary:

Year 1- Inspection and repairs

Year 2- Inspection and repairs

Year 3- Inspection and repairs

Year 4- Inspection and repairs

Year 5- Inspection, repairs, two coats of red polyurethane structural spray and a complete re-stripe.
