

Supporting Parents, Grandparents and Caregivers with Accessing Computer-Based Programs through Wadsworth City Schools

WCS uses several programs to communicate and inform you of your student's progress. Our district home page is the hub of all information and resources. Please visit Wadsworth City Schools website at <https://wadsworth.k12.oh.us>.

Provided below are several necessary programs and tools to assist you throughout the school year:

1. **Progress Book** is an interactive tool used to review and monitor student's grades and assignments. This program allows teachers to upload grades, provide feedback, and show missing assignments. A letter will be mailed with your user name and password. To access Progress Book please follow these steps:
 - a. Go to Wadsworth City Schools Website at <https://wadsworth.k12.oh.us>.
 - b. Select 'Parents' tab.
 - c. Select Parent/Student Progress Book.
 - d. Type username and password. (If you have not received this information, please contact your student's building secretary.)
2. **Emergency Medical Forms** are filled out online with a program called **InfoSnap**. A letter will be sent that provides the necessary log in information. If you do not have the information please contact your student's school secretary.
3. **PaySchools Central**, also found on the homepage, is the program where you can put money on your student's lunch account for easy access in the lunch line using their school identification number. However, you may also send cash or write a check to keep in their account. You may also pay the instructional fees here.
4. **Email** addresses for all staff are found on the homepage by clicking **staff directory**. You can narrow your search or hit 'submit' for all staff. Please check your email daily for information and updates from both your student's school and the district. Please sign up for district as well as school emails. Teachers may send weekly newsletters through email. All students are assigned a gmail account. Please remind them to check theirs daily as well.
5. **Other forms of communication:** Teachers use a variety of tools and technology to communicate with and to educate students, parents, grandparents, and caregivers. Such tools may consist of **Google Classroom** and other Google programs (including Gmail and classroom websites), the **Remind** app and **ThinkCentral**.

If you do not have access to a computer or device, please stop by your student's school for more information or for support with electronic resources. Always feel free to contact the school or your student's teacher with any questions or concerns. We are all here to help!
